## COMPANY STRUCTURE

**SEA VALUE Public Limited Company** is founded in March 2004 as a holding company for two leading processors, I.S.A. VALUE Co., Ltd. and UNICORD PLC. with a total of 3 factories, processing mainly canned- and pouch tuna.

By combining the accumulated experience of the partners, SEA VALUE PLC. produces guaranteed excellent quality tuna using the most advanced manufacturing technologies in all our processing facilities. From the sea to the can/pouch, we seek high quality raw material and pay special attention to every single step to produce superior products to serve the world's market.

In 2008 **SEA VALUE** opened their European Sales & Marketing office "**SEA VALUE EUROPE BV**", based in The Netherlands and is ready to serve you as our valued European customers in the best way. Whether your needs are FOB, CFR, CIF, DAP, DDP loose loads or palletized, "**SEA VALUE EUROPE BV**" can handle all and is your **one-stop-shop solution**.

End October 2015 **SEA VALUE** made the next major step in their development in the Global Food Market, and was able to acquire an existing plant, now being its 4th state-of-the-art tuna processing facility, located in Brittany France, under its name: "**SEA VALUE ATLANTIC S.A.S.**" with a production capacity of about 5.000 MT per year.

## PRODUCTS "SEA VALUE ATLANTIC" FRANCE LOCATION

We currently process various premium fish and seafood products mainly for **foodservice** and **industrial end-users**. Tuna, salmon, cod, etc. are processed by a new production technology in 1 kg, 3 kg and 5 kg pouches.

Also we produce a wide variety of value added products like;
